

C – One-Page Teaser - The Light of Sunless

_ENGLISH

Title: The Light of Sunless 

Genre: Epic Sci-Fi / Philosophical Thriller

Format: Feature-first cinematic universe (trilogy with spin-off potential)

Logline

In a world where light is often false, three unlikely allies—a night-marked detective, a precision-obsessed engineer, and a street dog with supernatural instincts—unite their true light to expose systems that thrive in darkness.

Core Concept

The Light of Sunless is a fully developed, adult-oriented cinematic universe blending noir, technology, and ethical philosophy.

The “sunless light” is a metaphor for inner focus and moral courage, not fame or illusion. Each story confronts different forms of power—financial, media, and state—but the core struggle is timeless: freedom with responsibility versus control under the guise of order.
